API Integration – Clinic Booking STES AUTH

Title	API Integration – Clinic Booking STES AUTH
Revision	REV 1.0
Stakeholders	Randox IT
Date	17 April 2024

Documentation Scope

The purpose of this document is to detail the authorisation credentials for accessing the testing environment for Clinic Booking API interactions.

Clinic Booking API Auth

Use the below authorisation credentials to get a valid bearer token.

Auth Endpoint:

https://randoxclinicbooking.b2clogin.com/randoxclinicbooking.onmicrosoft.com/B2C_1_apim_ropc_signin1/oauth2/v2.0/token

Client Id:

0b0399a4-d61f-43fc-a0d0-3311f60cdcb1

Scope:

https://randoxclinicbooking.onmicrosoft.com/clinic-booking-platform-api/user_impersonation

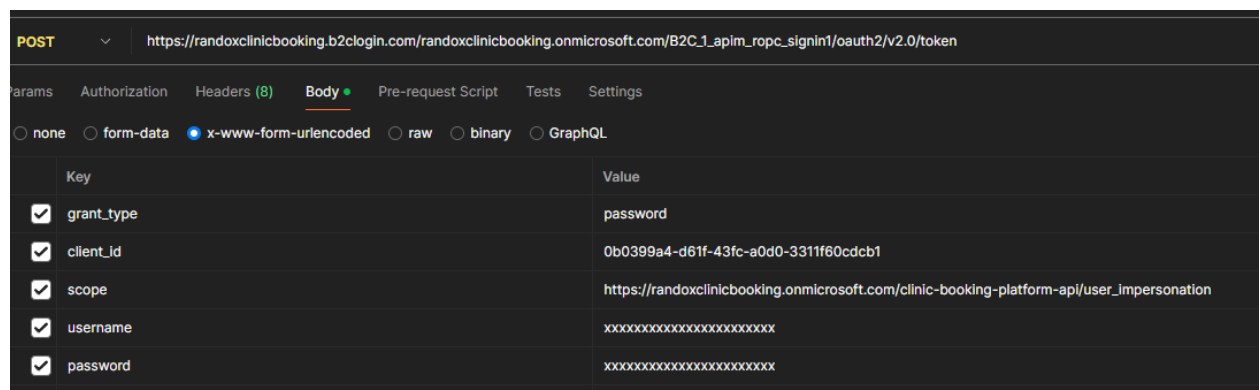

Username:

This will be the username created within the Developer Portal.

Password:

This will be the password created within the Developer Portal.

Postman Example:

Clinic Booking Endpoints

For all endpoints, the base URL will be as follows:

<https://stes-cb-platform-apim.azure-api.net/booking-platform-api/>

Example – Get Biological Sex:

<https://stes-cb-platform-apim.azure-api.net/booking-platform-api/BiologicalSex/GetBiologicalSex>

Authorisation will be the bearer token and in the header section include the following key:

Ocp-Apim-Subscription-Key

The value of this key can be found within your developer portal:

The screenshot displays the configuration interface for the 'Clinic Booking / Get Biological Sex' endpoint. The interface is divided into several sections: 'Authorization', 'Parameters', and 'Headers'. In the 'Authorization' section, the 'Authorization server' is set to 'CB Authorization', the 'Authorization flow' is 'authorization_code', and the 'Subscription key' is 'Primary: Product Clinic Book'. The 'Parameters' section is currently empty. The 'Headers' section contains three entries: 'Cache-Control' with value 'no-cache', 'Ocp-Apim-Subscr.' with a masked value, and 'Authorization' with a masked value. The 'Ocp-Apim-Subscr.' header entry is highlighted with a red rectangular box.

Clinic Booking / Get Biological Sex

GET /booking-platform-api/BiologicalSex/GetBiologicalSex

Authorization ^
